THE subscriber, by appointment from the Commissioner of Patents, is Agent of the U. S. Patent Office for the purpose of receiving and forwarding to the same all such models, specimens of ingredients and manufactures, as shall be intended to be patented, or deposited therein, which will be received and forwarded, free of expense and risk to their owners, and with all possible despatch. The subscriber will prepare Caveats, Specifications, Assignments, and all the necessary Papers and Drawings, will make researches into American and Foreign works, for establishing the validity or utility of inventions, and render advice on all legal and scientific matters respecting the same. Patents secured in Europe and other countries.

By application at this office, inventors are saved the time and expense of a journey to Washington and delay there, as well as all personal trouble in obtaining their patents. The experience of fifteen year's practice—an extensive collection of rare works, documents, decisions, &c. on mechanical subjects and the Patent Laws—and patents of different countries, collected at much expense during the long time this office has been established, and to which daily additions are being made, together with accounts have kept of inventions patented at Washington, enable me to afford inventors assistance and information to a greater degree of securing Patents which in other respects might be difficult of attainment.

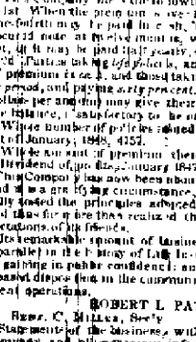
ALL-HEALING

Ointment,



FOR THE CURE OF

Colds, coughs, consumptions; for scrofula, scurvy, and all cutaneous eruptions; for bruises, burns, ulcers, sores of all kinds, and general or local debility.

This celebrated Ointment has most striking effect upon the blood, in cleansing it from all impurities, upon the internal fluid, which lubricates the joints and thus removes stiffness sorenesss and pain upon the lymphatic ganglia or glands, promoting the free and healthy secretion of the lymphatic fluid, and thus removes swelling of the glands about the neck, the groins, the axilla or under the arm about the ear, and all other parts of the body.

This All-Healing Ointment is equally efficacious in promoting the secretions of the kidneys, relieving from retention of urine; and by restoring the tone and function of the urinary organs, thus preventing incontinence of urine. It is equally efficacious in acting upon the nervous system by curing neuralgia, St. Vitus's dance, palsy, paralyses, numbness or want of feeling or power of motion from some local or general affection of the nervous system. It acts with great power on all the fluids and solids of the body, and attacks disease in whatever part located, whether on the surface or internal organs.

We speak the things which we know of the unparalleled efficacy of this justly celebrated, invaluable and worthily named "ALL-HEALING OINTMENT." The innumerable pains that have been assuaged, the ten thousand sufferers relieved and cured, and the more than ten thousand hearts which have been comforted and cheered by its salubrious efficacy, testifying to the truth of all, and more than all, herein inserted.

DR. CUMMINGS'S

Compound Extract of Sarsaparilla and Dock.

THE articles above named are the principal ingredients of this medicine. With these combined to render them more active, and consequently more immediately effective.

The Dock, or rather a species of it, more ranks as a medicinal plant, second to no one of the vegetable kingdom. With the aid of a distinguished chemist, whom the proprietor has consulted in the preparation of the compound, he has succeeded in overcoming the difficulty of preserving the extract of the root for any considerable length of time.

For many years the proprietor has testified in his practice the efficacy of the principal substances of the compound, and is perfectly satisfied that they possess all the properties which have been ascribed to them. Recently he conceived the idea of uniting them, which has resulted in the production of the compound. In this the ingredients are found to act in harmony, and to lose none of the qualities which they separately possess.

A larger portion of Sarsaparilla is soluble than has generally been supposed. The extract most to be relied on, and least liable to decomposition, is procured by subjecting the root to the action of the menstrua usually employed in extracting it, for a long time, without heat of any other evaporating agent. None is permitted to be used in the compound, that has not been distilled by the process and that has been less than a year in preparation.

The Compound is recommended for Scrofula, Erysipelas, Ulcerous affections, Eruptions, and Mercurial diseases. Also for the many complaints arising from sedentary employments, or occupations of a harassing and fatiguing nature, intense application, exposures to extremes of heat and cold, overtaxing the physical powers, and other abuses of the constitution: among which are Neuralgia, Piles, Affections of the Liver, Bilious Complaints, and Dyspepsia or Indigestion.

In diseases of warm climates, with many the proprietor become familiar in his practice. Having, some years since, the compound will prove particularly efficacious, both as a remedy and preventative.

This medicine has been for some time in use in this city, where the proprietor has passed nearly half a century of his professional life. It was extensively prescribed by him while in practice, and it is believed to be in favor with his medical brethren in general, to whom he is known.

Important Letter.

MESSRS. CURTIS & SMITH.

Dear Sirs.—I hope with you'll excuse me a few lines [illegible] you in your "Brown's Elixer," which, for the [illegible] of the suffering, it was think worthy you are at liberty to make public. About a year and a half ago my mother became sick, up the [illegible] time she began greatly at least for her life. Her symptoms were, bad cough, pain in the side and stomach, night sweats, and other premonitory [illegible] of pulmonary consumption. We consulted our best physicians, who gave her little or no relief, and finally pronounced her case incurable consumption. She continued to become weaker, and the symptoms more confirmed.

About this time, at the suggestion of a friend, we concluded to try Downs' Elixer. Having procured a bottle from your agent (S R Bradstreet Esquire) she commenced taking it. At first it seemed only to mitigate the severity of the symptoms, but in a short time her health began evidently to improve. I became her cough, relieved her night sweats, and greatly improved the tone of the whole system. After having continued its use most of the time for nearly a year, she calls herself cured. She [illegible] to go about the house, and superintend affairs as usual. Under God we believe that to Downs' Elixer, alone, she owes the preservation of her life and the restoration of former strength and energy. We have also used it in our family in other cases for which it is recommended in the pamphlets, with universal success. Yours truly,

(Signed) SWAIN P. NOLDSTROM.

The above is only one of a thousand similar letters which we are constantly receiving from all parts of the country almost daily.

DOWNS' ELIXER is unquestionably the best [illegible] for the cure of *COUGHS, COLDS* and *CONSUMPTION*. It is more certain to give relief in all cases of *ASTHMA*—often a perfect cure—than any thing hitherto offered to the public.

In cases of *WHOOPING COUGH* it needs only to be tried to give it preference over all other remedies. It immediately breaks up the cough, and renders a severe [illegible] what is otherwise a scourge and terror. For the *CROUP* it is a positive cure. We speak with confidence, for it has never failed, and we believe never will, when used according to directions.

Pamphlets, giving a full description, to be had of agents in almost every town and village in the country, and of the following, who are prepared to sell at wholesale or retail.

Case of Inflammatory Rheumatism.

MRS. LOCKMAN, a German lady, residing at No. 281 Pearl street, has been for some time afflicted with inflammatory rheumatism, and for three weeks was confined to her bed, and was attacked with a violent fever, which, in connection with the rheumatism, had nearly reduced her to the verge of the grave. At this time the Life Mixture was administered to her in doses of a tea-spoonfull every four hours. She experienced relief within a short time after commencing to use it, and within two weeks she was entirely cured and now enjoys the enjoyment of good health.

Whig and Courier.

John S. Sayward,—Editor.

SATURDAY, JUNE 17, 1848.

The Nominees of the Whig Convention—Duty of the Whigs.

Soon, and perhaps before the reading of the paper containing this article, the nominations made by the U S Whig Convention may reach this city We have that faith in the intelligence and honesty of the Whig representatives at Philadelphia that we believe their action will be the best for the country and the party Either of the distinguished Whigs who have been named for the office of President this paper can cheerfully support The nominees of the convention will be the candidates we shall support

Every observer of the course of events cannot fail to see that the present is an important and critical period in the history of our country — our political institutions are in danger and God, and good men, and wise counsels and prudent action are our only reliance

There are principles of political action which must be insisted upon by the North and which are too vitally important to be abandoned in supporting a candidate for the Presidency we shall not give up the principle that slavery must not be extended over newly acquired territory We believe Congress should regulate upon this subject and that its declaratory act should be binding upon all parties Whoever we may support for the Presidency we shall hold to this doctrine There may be Whigs who will support the same candidate and differ from us on this point Very well, let them do so. That is a point on which each will hold, and yet cheerfully labor to promote the election of the same man because there are many other issues involved in the election and on which we all agree We may neither of us get a man who in every minute and point agrees with all our notions but we may make a great advance on the present state of affairs—we may get a half a loaf of not a whole one, and this will secure many practical advantages to the country If the Whigs can not at one bound effect the highest of their wishes, and connect every existing political evil and establish all their measures, let them not turn away in cold neglect, nor give up in despair, but hopefully and earnestly and unitedly labor to make such advances as they may be able, and step by step advance their cause and bring the country into the course of its true destiny of wise and honorable progression to a higher and a purer State, where impractical benefit shall be wrought out for the advantage of the whole people

☞ The New York Express states that on Tuesday the 6th inst a man named Joseph Sheridan, from Washington street, in the city of Brooklyn, was severely bitten in the leg by a small dog of the terrier species, while he passing through Broome street, opposite to Dr Cone's Church, in that city The animal presented all the frightful symptoms of hydrophobia and was pursued by two or three men who happened to observe the unfortunate occurrence and having run only to ask each other what—appearing to pay any heed at the attempts which were being made to kill him—he was overtaken at Spruce street and stoned The wound in Sheridan's leg appears deep but not wide or lacerated

Adulterated Drugs.

The bill to prevent the importation of spurious and deteriorated drugs, now about to become a law, has long been greatly needed The testimony taken and to the House of Representatives, proves conclusively that dangerous and deadly frauds have been practiced in the introduction of the most villainous compounds under the names of medicinal substances in common use The matter was first suggested to Congress by the National Medical Convention, the Committee of the House to which it was referred, was composed exclusively of medical men The bill now about to pass interdicts the importation of all spurious drugs, and orders the appointment of examiners in the different ports, authorized to inspect, analyze, &c, and prohibit, to destroy all such fictitious poisons

☞ The Calais Journal a small politics loco foco paper seems to be quite offended because we oppose the election of Lewis Cass for the Presidency It is a hard case that we cannot please the Journal in this thing, but so it is — If our facts make the little thing squirm, we can only pity, not relieve it

The Mississippi river, getting tired of travelling several miles around an ox bow, took the advantage of a freshet, and struck a bee line across, digging a channel deep enough for the largest class of steamers, and shortening the distance twenty-six miles

The people of Readfield, Winthrop, Wayne, East Livermore, Fayette and Mount Vernon, contemplate having a Mass Temperance Celebration on the Fourth of July next, in a grove, in some central place, to be selected by a committee for the purpose

☞ The Seaman's Charitable Society of Marblehead are about erecting a granite monument twenty five feet in height, to commemorate the sad disasters by which so many of the citizens of that town were lost upon the Grand Bank in September, 1846

☞ We learn that the body of a boy belonging to Belfast, and who last week fell from a vessel in our harbor and was drowned, was taken from the river yesterday forenoon We understand he was named Potter

☞ The Legislature of Connecticut has appropriated $10,000 for the establishment of Agricultural schools.

The American Bible Society have voted to expend $10,000 in circulating the scriptures in France

A Card Factory, the first of the kind has been put in operation at Westbrook, in this State, for the manufacture of cards used in clothing mills.

Charles Astor Bristed, son of Mr Astor's grandchildren and heirs, has resolved to Washington city, nine hundred dollars to be expended in the redemption from slavery of the fugitives of the Pearl The proposal was entirely voluntarily, and unsolicited, and best made by him immediately upon learning that the twelve were to be sold.—Cincinnati Herald

Mr. Chambers, in the Pilsburg Journal, has a recent account of a summer tour in Germany, a graphic description of which he is making in Salzburg an ancient town most romantically located in a vale of the river Salza in Germany After quitting all the mustiness for sawing marble blocks for statues columns &c carried by a stream which dashes from a lofty alpine height he came

At a little distance, and higher up the hill was this the recess of a most picturesque ravine, we were shown a more novel and curious operation than was the making of boys's marbles; and a more simple process can hardly be conceived Small pieces of marble being put into a peculiarly shaped stone trough or block, a top of the same material, fitting into certain grooves, is made to whirl about by little streamlets led from the main torrent and the shavings are soon ground into a spherical form There were a boat twenty of these little apparitioning mills, one above another on the stream so that the scene was busy and amusing At a glance we were let into the secret of cheap pebble grinding in Germany. No expense whatever had been incurred to construct the mills the situation was of the humblest kind, the stones on the uppermost streamlet were each nothing more than a turf the saw mill came out of the hill side and the superintendent of works was a female who probably considered herself well paid if seventeen creations each two pence a day — And from this primitive manufactory boys marbles are sent in vast numbers all over the world

The following was the address given by the French Provisional Government to the people on the eve of the election for the National Assembly. It is equally applicable to Americans in the selection of candidates for public offices

"As the object is to save the present evils of the country, and to organize for the future the reign of brotherhood, (fraternity) choose for your representatives those in whom you see the highest private virtues, intelligence devotion but beyond all, whatever may be their political position, they will represent the nation worthily Take those in whose wisdom and spirit of moderation you have confidence Those who have the greatest stake in the country, the proprietors, the capitalists, the farmers, and laborers intelligent and simple, are all equally interested in success Avoid every signal and of course here we incorporate with make, but march perseveringly and boldly on the road to the highest private virtues, intelligence devotion and success. There are husbands fathers and sons to be saved. Think

POST-OFFICE
Butter Store!
Butter reduced in Price.
HAVING made arrangements with some of our best Dairies, in this county, from which I shall receive about Five Hundred Pounds choice Table Butter daily, every morning. I shall thus be enabled, and can and will sell, 5 to 10 per cent cheaper, of the same quality, than can be bought in the "Auction Market," where every body is buying upon each other. And I will send to any part of the city over "One Dollar's" purchase if within half mile of the Post Office, free of charge.
TERMS—*Cash*, and nothing else. Grateful for past favors, I hope, by the above principle, to keep pretty busy this season.

DANCING.
MR. SULLIVAN has the honor to announce to the inhabitants of Bangor and vicinity, that he will open a school there, for the purpose of giving instruction in DANCING, in all its *fashionable branches*, as soon as a Class of 24 pupils can be procured. A subscription list, with terms &c., is now ready at the Bangor House. Those wishing to avail themselves of his instruction will please enter their names in the list.
Mr S says "as you is founded, not upon mere Dancing but upon the more *essential* requisite, *carriage and deportment*." His aim is to develope *natural* graces by a thorough and regular method of instruction, thereby imparting that peculiar ease, grace, and elasticity of movement, so conducive to health as well as elegance of figure and deportment.

DISEASES OF THE Throat and Lungs.

COUGHS and Colds, the fearful parents of Consumption, Bronchitis, Asthma, Pleurisy, and many other dangerous diseases are too often neglected until the foundation of the Specific Complaint is laid deep in the System. A Physician is then called in, who administers a few Palliatives, but declares the disease incurable, and the Patient in confirmation of his opinion, dies. But why does he die? Simply because he does not resort to the proper remedy, but trusts the mere ipse dixit of a Practitioner rather than the infallible evidence of experience and the most authentic testimony. On this basis is the cultivation, the efficacy of

DR. VONDERSMITH'S INDIAN COUGH BALM and Lung Balsam,

have been thoroughly established. Let those who doubt, read the following testimonials which are merely samples of hundreds of the same nature.

CONSUMPTION

AND AFFECTION OF THE LIVER, CURED,

Of Twenty Year's Standing!

CITY OF NEW YORK, July 21st, 1847.

This is to Certify, that I, Nelson, Lacrance, of Jersey City, have been subject to a dreadful hacking cough and a pain in the side and chest, attended with night sweats and general weakness of the system for a period of twenty years, and pronounced INCURABLY CONSUMPTIVE; neither the advice of regular physicians nor the many advertised remedies I have taken have been of any permanent benefit, and I was yielding hopelessly to the progress of my disease, when I was persuaded to try Dr. E. W. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM, by the aid of which, all my hacking cough has been removed, and I have been wonderfully restored to the blessing of health, and the prospect of a prolonged existence.

In gratitude for which, and in the hope of benefiting others, I solemnly testify to the facts in this certificate. NELSON LARRABEE.

Jersey City.

Sworn to before me, this 21st day of July 1847.

WM. V. BRADY, Mayor of the city of New York.

INFLAMMATION OF THE LUNGS.

NEW YORK, June 19, 1847.

DR. VONDERSMITH—I have been subject for a long time, pain in the chest, difficulty of breathing, &c., for which I used many remedies. About four months ago I took a severe cold which settled on my lungs. I was unable to get out and my business during that time. I felt so ill for that I thought I could not possibly survive for less. I could get relief. The excessive night sweats had reduced my whole body to a skeleton. I, unfortunately white from my mucous, and also, should I give the full particulars of my case, it would be almost beyond belief. I was recommended to try Dr. VONDERSMITH'S INDIAN COUGH BALM AND LUNG BALSAM. I consented, when I had used it about one week, my cough decreased considerable, which gave me great hopes. I continued with the medicine according to directions, and the result has been that I am restored to health, a blessing that I have not enjoyed for years, until the present time. I sincerely believe had I not made use of Dr. V's invaluable Medicine, that I would be mouldering in the silent grave. Therefore I believe, that in doing nothing but justice, in stating the above facts, as truly as may show it to all the afflicted, who may call upon you to administer to them. I shall be pleased at any time to converse with the afflicted, who may call upon me.

Your grateful patient and friend.

JAMES B HENDERSON, No 703 Washington st.

Sworn to before me this 19th day of June 1847.

WM. V. BRADY,

Mayor of the city of New York.

CONSUMPTION.

STATEN ISLAND, June 10th, 1847.

DEAR SIR—I take great pleasure in giving you my certificate; in December I was attacked with a severe cough, pain in my left side, loss of appetite, and continual raising of phlegm and very low spirits. Some days I raised a half pint of mucous as tinged with blood. I have been under the treatment of a dozen physicians, was recommended by Dr. Marks of Philadelphia to use a breathing tube, I purchased and only made use of it for one week; it was the cause of bringing on hemorrhage of the lungs, which reduced me so much that I was unable to set up, my voice was entirely destroyed. It was difficult for me even to understand me. I saw Dr. V. Adamsmith's Medicine recommended very strongly by a person whom he had cured. I sent for half a dozen bottles, I received great benefit from that, which induced me to purchase a dozen bottles. I took according to the directions, and it cured me perfectly sound. Yours, &c, ESHERR WILLSEY.

Sworn before me this 10th day of June, 1847.

KirkBride's Tattersall's LEAVE POWDERS!

A SAFE, SPEEDY AND PERMANENT CURE for *Horses, Broken Wind, Chronic Coughs, Colds*, and all diseases which depend upon inflammation of the mucous membrane in the lungs; treat or heal of the Horse, as affect the

Soundness of the Animal's Wind,

This remedy which has been used with such remarkable success in England, is now offered to Horse owners in the United States as a positive specific for those obstinate and distressing complaints. From the combination of powerful vegetable ingredients in the composition, it is enabled to compete, successfully with disease in the hardy constitution of the Horse, and at the same time, is warranted to be perfect, safe and genial, is eaten greedily by Horses and other cattle, and does not at all incommodate the animal, or deter him from usual labor. The following is one amongst many proofs we have of its efficacy. It is from one of the best Farriers in New York, and a gentleman whose knowledge in the medical treatment of Horses is very extensive:

New-York, Nov. 1, 1847.

Messrs. A. H. Gough & Co.

Gentlemen—You will recollect that I bought a pair of age of your Leave Powders some time ago to administer to a valuable horse of livery in my stables and tho' I was quite doubtful of the wisdom of attempting to cure such a bad case as his was and did not, in fact believe there were any medicines better for his complaint than those I had been in the habit of administering my extensive practice with Horses. But justice to you and your valuable remedy, requires me to say, that that single package cured the animal of as aggravated a case of Heaves as I ever saw, and his wind is now perfectly good. I believe the cure was permanent also.

Respectfully, Ed. FLOYD, 102 Laurence-st.

Messrs. A. H. Gough & Co.—Gents: I bought, about six weeks ago, a package of Horse Powders to administer to a favorite horse, who had been troubled with heaves for more than two years. His case was a very bad one, and so severe as to incapacitate him from half his usual labor, and had resisted all the remedies ordinarily used for this disorder, that had no effect but to slightly diminish the violence of the heaving while taking the medicine, but the package of your remedy has completely relieved him of the complaint, and certainly as good a horse as was, It is a month since he has taken the Powders, and I can correct him so cured.

Respectfully, GEO. W. DAVIS,

Morrow, Middlesex Co., N.J.

Besides their specific action upon diseases of the lungs and windpipe, the Tattersall's Horse Powders, from their great alterative and restorative properties, are an effectual tonic for horses or sub-specific powers to be in the human race for the renewal of the energies of the blood and the suppression of disease. Many a case of founder has been prevented and cured by a few doses of the Leave Powders, and a thorough and permanent restoration of health and strength to the animal after a hard day's or excessive journey is a frequent occurrence. They are warranted to cure the worst cough in a few days, and will speedily eradicate a recent cold in the use of 1 or 2 doses. All constitutional diseases are compounded, especially where a tight hide, staring coat, loss of appetite, and, despite a management of the digestive functions, constipation of bowels and staring in the eyes have existed, as described in the following certificate:

Messrs. A. H. Gough & Co.—That package of your Horse Powders that I bought of you for my horse's cough has entirely cured him, to my different way than I expected. The first dose of Leave Powder with the addition of a tablespoonful of Tattersall's Horse Powders, has entirely removed the cough, rough coat, etc., which he exhibited, for that period has entirely cured him; his appetite is good and he is now in prime condition. I shall be ever recommend your Horse Powders for worms as well as heaves. Yours, SAMUEL ROBERTS.
